JOHN DOE

Java Backend Developer | Spring Boot | REST APIs

New Delhi, India | +91 98765 43210 | john.doe@email.com | linkedin.com/in/johndoe

PROFESSIONAL SUMMARY

Backend developer with 3+ years of experience building scalable Java applications and REST APIs. Hands-on experience with Spring Boot, Hibernate, PostgreSQL, Docker, unit testing, and Git. Strong understanding of object-oriented design, database optimization, and clean code practices.

TECHNICAL SKILLS

Languages: Java, SQL **Frameworks:** Spring Boot, Spring MVC, Hibernate/JPA

Databases: PostgreSQL, MySQL **Tools:** Git, Docker, Maven, Postman, IntelliJ IDEA

Testing: JUnit, Mockito **Concepts:** REST APIs, OOP, Design Patterns, Data Structures

PROFESSIONAL EXPERIENCE

Software Developer | TechNova Solutions — New Delhi, India | 2023–Present

• Developed and maintained Spring Boot REST APIs for customer and order management workflows.

• Improved database query performance by optimizing SQL queries and adding appropriate indexes.

• Implemented unit tests using JUnit and Mockito, increasing automated test coverage across core services.

• Collaborated with frontend and QA teams to troubleshoot production issues and deliver features.

Junior Java Developer | CodeSphere Technologies — Gurugram, India | 2022–2023

• Built backend modules using Java, Spring MVC, Hibernate, and MySQL.

• Integrated third-party APIs and implemented request validation and exception handling.

• Used Git and Maven as part of a Scrum-based development workflow.

PROJECTS

Order Management API: Designed REST endpoints for order creation, status updates, search, and cancellation using Spring Boot and PostgreSQL.

Task Management System: Built a role-based backend with JWT authentication, CRUD APIs, pagination, and database persistence.

EDUCATION

Bachelor of Technology in Computer Science | Delhi Institute of Technology | 2022
